

Computer Network HW3 Report

b05502087 Hung-Jui, Wang

1 How to execute your program

compile

- We have makefile!

```
1 make
```

```
1 make clean
```

execute

- ./receiver [agent IP] [agent port] [receiver port]
- ./agent [sender IP] [recv IP] [sender port] [agent port] [recv port] [loss rate]
- ./sender [agent IP] [agent port] [sender port] [video path]

```
1 ./receiver local 5001 5002
```

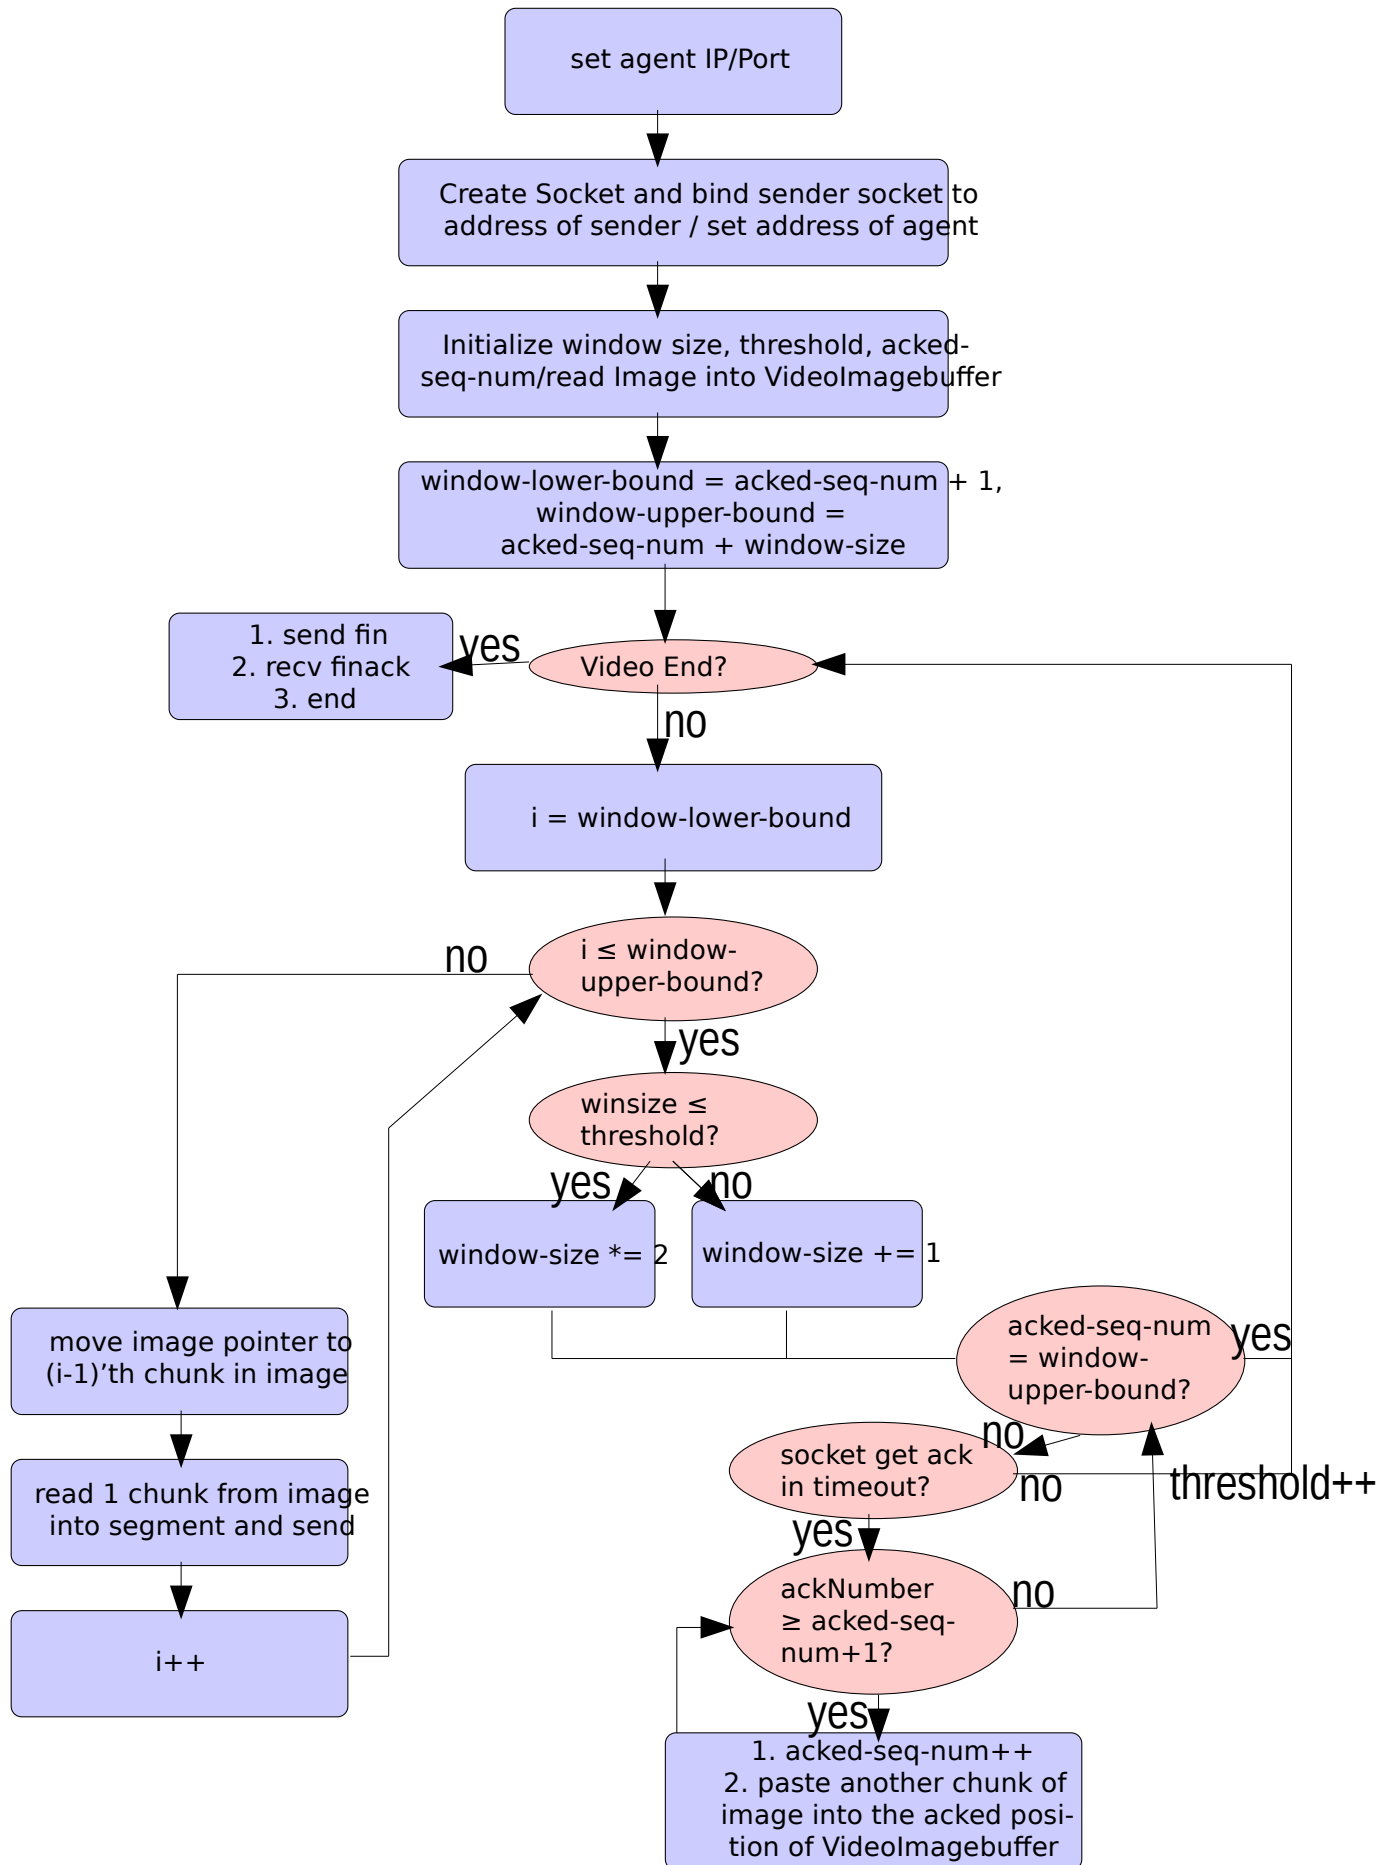

```
2 ./agent local local 5000 5001 5002 0.3
```

```
3 ./sender local 5001 5000 tmp.mpg
```

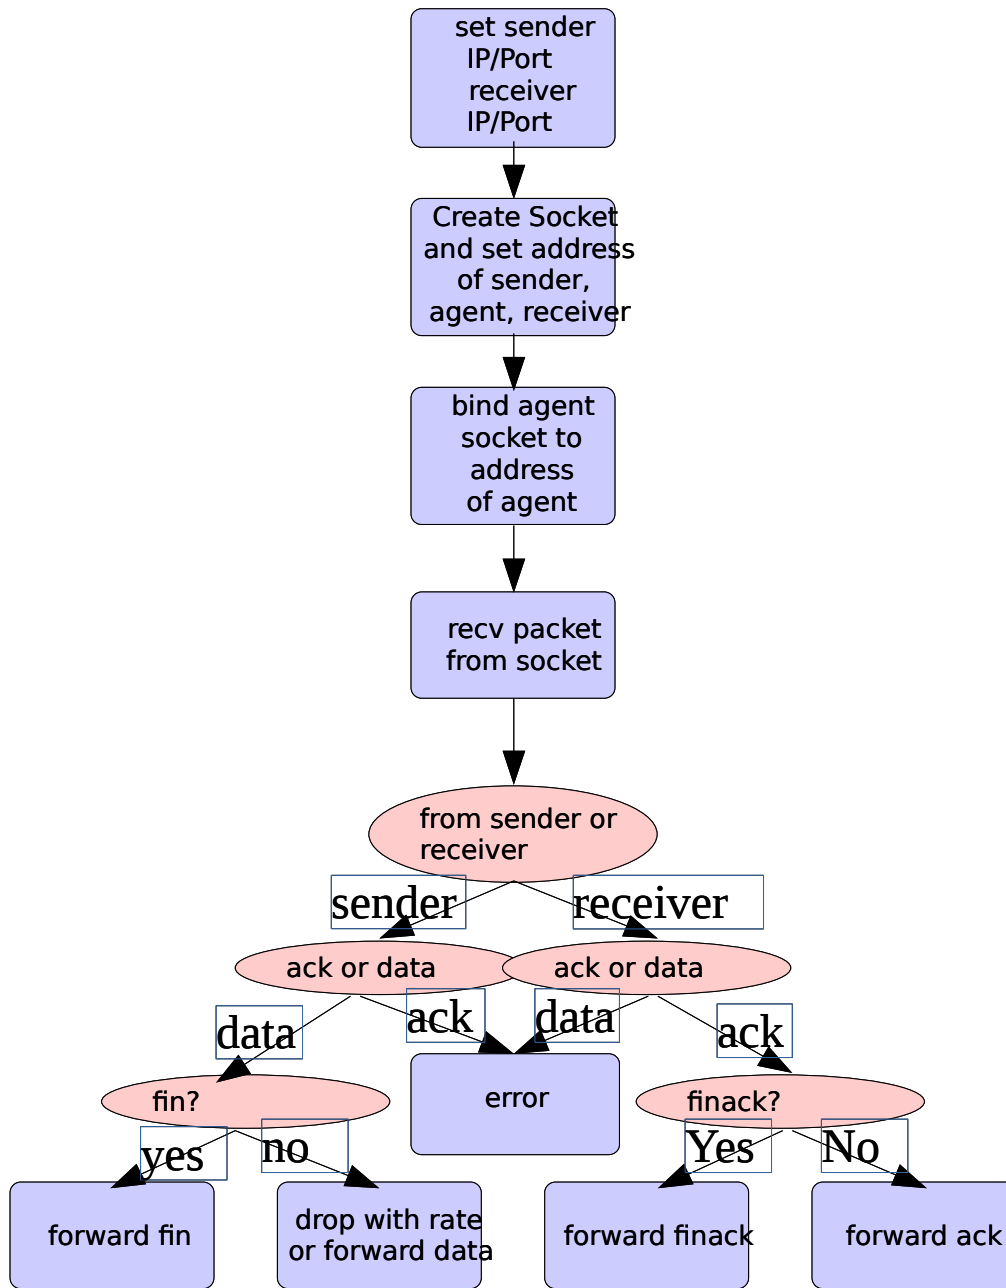

2 Explain your program structure

- We have three flowcharts for sender, agent, receiver as follows!

1. sender

2. agent

3. receiver
